Answer the questions

1 What is something good that has happened to you in the last 4 weeks?

2 What does your epilepsy stop you doing?

3 Tell me about your seizures.

For example, how often do you have a seizure, how long does the seizure last, are there any patterns?

4 Have you hurt yourself since your last review appointment?

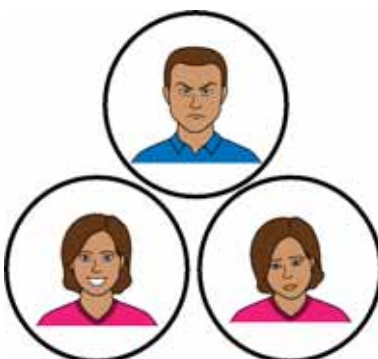

For example, from seizures, from something else.

5 What has happened with

- going to sleep?
- the times you wake up?

For example, is it hard to go to sleep, do you wake up in the middle of the night, do you wake up early.

6 Has your mood been different?

For example, happy, sad, not interested, cross.

7 Your medication for epilepsy
What side effects do you have?

Is it hard to take your medication?

Do you need more scripts?

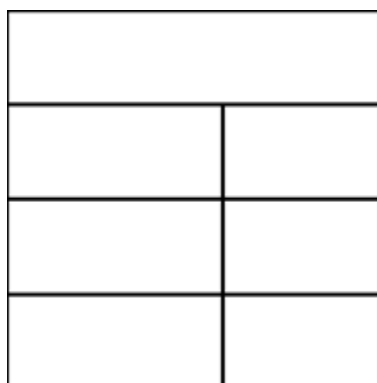

What other medication do you take now?
