

Support from disability and health organisations

Information and advice regarding other disabilities and health conditions that can occur in conjunction with epilepsy is available through several support organisations. These include:

AUTISM SPECTRUM DISORDER (ASD)

There are various [state ASD organisations](#) that provide information, advice and support for people living with autism spectrum disorder and those who care for them.

BRAIN INJURY

[Brain Injury Australia](#) provides information and referrals in support of all Australians living with brain injury.

[Families4Families](#) is an organisation that fosters peer support networks to help people with acquired brain injury and their families.

CEREBRAL PALSY

[Cerebral Palsy Australia](#) is the national peak body of organisations that work with people with cerebral palsy and people with similar disabilities and their carers.

DOWN SYNDROME

[Down Syndrome Australia](#) is the national voice for people with Down syndrome and their families.

FRAGILE X SYNDROME

[The Fragile X Association of Australia](#) serves its members and aims to improve the wellbeing of Australians affected by Fragile X disorders through providing support to them and their families.

PALLISTER-KILLIAN SYNDROME

[Pallister-Killian Syndrome Foundation of Australia](#) has been established to provide help and support to individuals diagnosed with PKS and their families as well as raising awareness and providing information to the medical community.

PRADA-WILLI SYNDROME

[Prader-Willi Syndrome Australia](#) is a self-help group comprising people born with Prader-Willi Syndrome, parents, friends and interested professionals.

RETT SYNDROME

[Rett Syndrome Association of Australia](#) seeks to improve the quality of life for persons with the syndrome and their families, and be of assistance to anyone interested in the disorder.

TUBEROUS SCLEROSIS COMPLEX

[Tuberous Sclerosis Australia](#) empowers people affected by this condition through access to the best treatment options, up to date information and support.

More information about [epilepsy-related syndromes](#) and links to [Australian and international support organisations](#) is available here.
